

Team Projects

Lordbound (Skyrim Expansion Mod – Team of 21)

Jan 2018 – Present

- Level Designer responsible for design and implementation of assigned dungeons, pitching a concept and taking it from graybox to polished.
- Gave feedback each week on a different dungeon.
- Iterated on designs based on playtest feedback.
- Edited existing models with new textures for more effective kit bashing.

The Salem Witch Hunt (Board Game – Student Team of 3)

Mar 2016 – May 2016

- 3v1 board game that iterates on the hidden movement system of the popular game “Letters from Whitechapel.”
- Designed turn system, including possible player actions, number of actions per turn, and number of turns per round.
- Designed 4 possible character choices, each with fun and unique abilities.
- Conducted multiple playtest sessions with specific questions prepared.
- 2016 University Student Show winner for Best Game.

Solo Projects

Overload (Twin-Stick Shooter – Unreal Engine 4)

Jan 2018 – Present

- Designed for two different game modes: Survival (horde mode) and Campaign (dungeon crawl).
- Survival mode map designed for strategic player pathing options to avoid enemies.
- Designed 3 different main enemy types, each with different size, movement speed, health, and damage stats.

Old Fort Seranoraj (Skyrim Mod)

Dec 2017

- Skyrim dungeon/quest mod completed under self-imposed 14-day challenge.
- 1 new dungeon featuring scripted enemy encounters, a scripted boss fight, and a unique weapon reward.
- Quest designed with environmental storytelling focus, relaying information to the player without dialogue.
- Edited enemy stats for better balance.
- Inspiration taken from real world reference location: Old Fort Niagara.

The Secret of Coldwater Cave (Skyrim Mod)

Dec 2015 – Jan 2016

- Skyrim dungeon/quest mod adding about 30 minutes of gameplay.
- 1 new dungeon featuring scripted enemy encounters, a scripted boss fight, and a unique weapon reward.
